GLOBAL HEALTH FORUM

Convener: Suren Krishnan

Professor Rajat Gyaneshwar  
**Nasinu, Fiji**

Rajat was born and bred in Labasa, Fiji. He was educated at St Mary’s, All Saints and Marist Brothers High School in Fiji and graduated in Medicine from UNSW. After working in Fiji at CWM, Lautoka and Sigatoka hospital went for postgraduate studies in Sydney, becoming a specialist in O&G. Proceeded to UK for further training and experience, returning to Fiji to work as a specialist at CWM, as acting Dean of Fiji School of Medicine when after the 1st military coup he resigned and worked in Sydney till 2010. He has worked in senior clinical and administrative capacities and was a conjoint associate professor in Sydney. He has done several international consultancies for the WHO, UNFPA and other international bodies. He served on the NSW medical board for several years and has been an examiner for Australian Medical Council and RANZCOG. He is married to Dr Swaran Naidu and has a grown-up family.

Professor Mark Shrime  
**Boston, USA**

Mark G. Shrime is an Assistant Professor of Otolaryngology and of Global Health and Social Medicine at the Harvard Medical School. He serves as the Research Director at the Program in Global Surgery and Social Change at the Harvard Medical School. In addition, he is an otolaryngologist at the Massachusetts Eye and Ear Infirmary. His academic pursuits focus on surgical delivery in low- and middle-income countries, where he has a specific interest in the intersection of health and impoverishment. His work aims to determine optimal policies and platforms for surgical delivery that maximize health benefits while simultaneously minimizing the risk of financial catastrophe faced by patients. Dr Shrime graduated from Princeton University with a BA in molecular biology. He received his MD from the University of Texas. Medical school was followed by a residency in otolaryngology at the joint Columbia/Cornell program in Manhattan, followed by a fellowship in head and neck surgical oncology at the University of Toronto. He completed a second fellowship in microvascular reconstructive surgery. He was the first to identify a novel independent prognostic indicator in head and neck cancer. To date, he has worked and taught in Liberia, Sierra Leone, Guinea, Benin, Togo, Congo, Haiti, Saudi Arabia, and Madagascar. In May, 2011, he graduated with an MPH in global health from the Harvard School of Public Health, where he was a finalist for both the Albert Schweitzer award and the HSPH Student Recognition award, and in May, 2015, he received his PhD in health policy from Harvard University, with a concentration in decision science.

---
